1. WEBSITE DETAILS

Title of the Website: ITM Skills University

Purpose of the Website:

The purpose of this website is to provide an informative and user-friendly platform for ITM Skills University. The website highlights key information about the university such as its vision, mission, curriculum structure, faculty and contact details. It also includes an enquiry feature that allows users to quickly express interest in academic programs through a popup form.

Target Users:

- Aspiring Students
- Parents and Guardians
- Faculty and Staff
- General Visitors
- Educational Institutions

Tools Used:

- HTML5
- CSS3
- VS Code
- Web Browser (Safari)

Key Features:

B.Tech - HTML CSS Mini Project

- Consistent header and navigation across all pages
- Popup-based enquiry form using CSS
- Structured pages (Home, Curriculum, About, Contact)
- Clean card-based layouts for content sections
- Responsive grid and flexbox layouts
- Minimal yet professional color scheme aligned with university branding

2. TAG DEFINITIONS USED IN THE WEBPAGE

2. Curriculum (Ninad Deodhare):

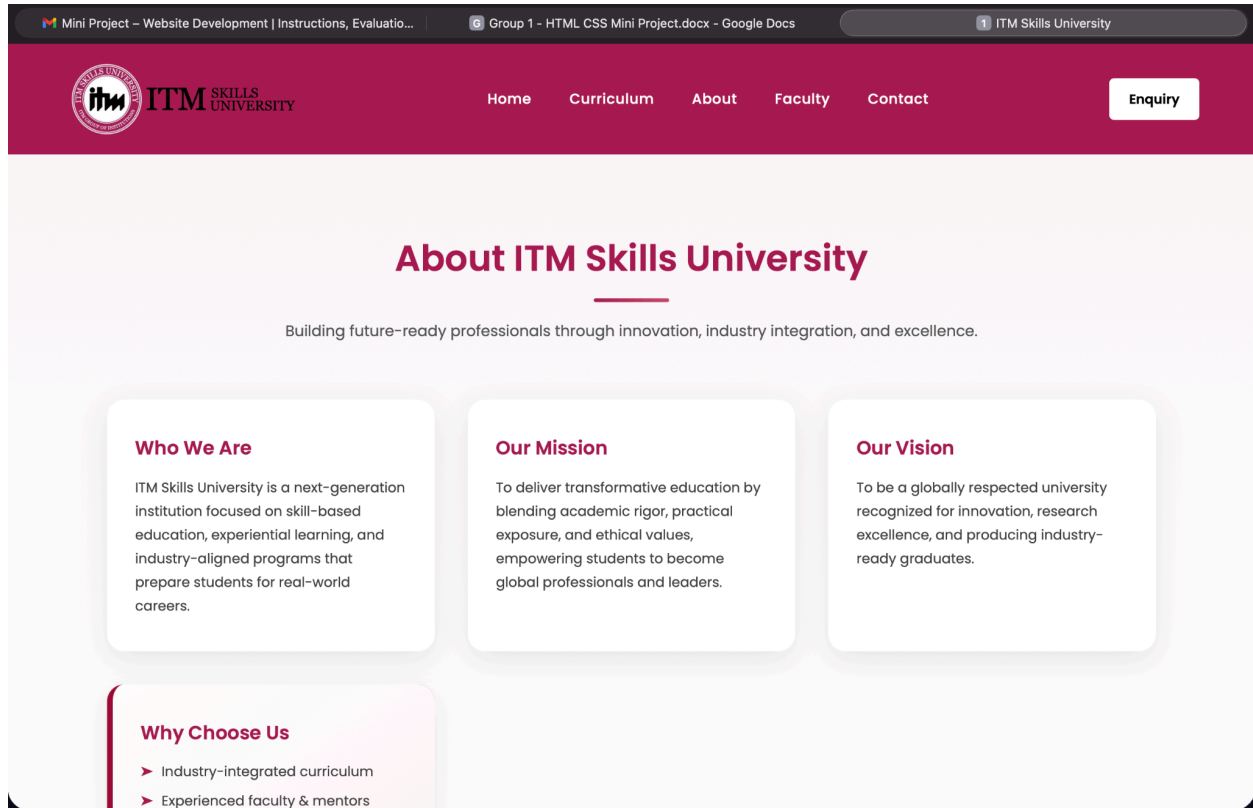

The screenshot shows a web browser displaying the ITM Skills University website. The page title is "Mini Project - Website Development | Instructions, Evaluation...". The browser tab shows "Group 1 - HTML CSS Mini Project.docx - Google Docs". The website header is maroon with the ITM Skills University logo and navigation links: Home, Curriculum, About, Faculty, Contact, and an Enquiry button. The main content area has a dark blue box with the text "The Truly Next-Gen B.Tech CSE Curriculum". Below this, a paragraph states: "This is where we spent sleepless nights for more than a year, developing the best curriculum possible with the help of over 50+ tech leaders in the industry. We are super proud of this achievement, this curriculum is trying to make our students ready for a specific job role each semester." The curriculum is divided into four semesters, each with a dark blue box containing details:

Semester 1	Semester 2	Semester 3	Semester 4
Semester 1 "Go from 0 to 2 in Computer Science Basics" Tech: * Get started with Computer Science, Competitive Coding, Trending AI tools - P1 Soft Skills: * Problem Solving* Communication	Semester 2 "Become a Frontend Developer" Tech: * JAVASCRIPT, HTML, & CSS, JavaScript, ReactJS, Trending AI tools - P2 Soft Skills: * Foreign language (German), Aptitude - I Business Skills: * How to build a valuable product and price it	Semester 3 "Learn Backend Development" Tech: * SQL and NoSQL, NodeJS, ExpressJS, Develop Full Stack App, Trending AI tools - P3 Soft Skills: * Aptitude II Business Skills: * Selling anything and building operations	Semester 4 "DevOps and Cloud Computing" Tech: * Amazon Web Services, System Design, DevOps, Trending AI tools - P4 Soft Skills: * Leadership, Placement Bootcamp - I Business Skills: * Economics and Customer Support

5. FUTURE SCOPE

The current website is developed using only HTML5. The future enhancements that can be implemented are:

- Interactivity can be added using better knowledge of JavaScript
- Video Tours of campus could be added
- Google Maps could be included for location
- Forms could be connected to a database
- A working website could be hosted
- Animations and transitions could be added
- An admin side of the page could be added
- Personalised icons could be added
